OUR VISION & MISSION

VISION

"To preserve our cherished memories in the most memorable way through Drone technology and be content with all possible views and make our customers happy and contented, so that we will be the leading supplier of Drone Technology."

MISSION

"Our Mission is to make this technology (Drone technology) popular so that the cost will be cut down and more real life pictures from the roof tops will be available. Drone Technology will enable our eyes to fly from any spot to any other spot. A picture saves a thousand words and to make people aware that Drones produce pictures which are impossible with a hand held camera. The greater demand will also bring down the costs and more real life pictures from the roof tops will be available. So, join us and Drone all your imagination."

HISTORY

Since setting up in 2014 as ONE STOP MEDIA, we have grown from a single founder to a multi-skilled team meeting high-level business needs through coordinated brand building and strategic, design-led work. Often helping our clients form their own brief, we love the single challenges of one off project commissions, whilst our work with brands has also evolved into forming many in-depth strategic partnerships.

Our diverse team collaborates closely with clients, and over the years, we have built many long lasting tight-knit relationships. Producing inspiring work that helps our clients connect with people no matter the platform has always been our goal and remains our focus. We tackle complex challenges across a number of communications and outputs often involving brand positioning, digital presence, physical experience and content creation. Together, we bring meaningful results to our clients, and our clients' clients.

ONE STOP MEDIA is number one source for all the digital services you are looking for; whether it is a Premium Website, Application, Media Production, Graphic Designing or even Event Organizing. We decided to be different just like you. Our main focus is Quality, Uniqueness and most importantly Creativity.

ONE STOP MEDIA now serves customers all over Sri Lanka, and we are proud to be the digital arm of lot of Small and Medium Scale Companies in the Island.

WHAT WE DO...

We have been serving the industry for the last 3 years undertaking different type of projects with one to one different tasks in all aerial service categories. Our operators are well trained and experienced enough to full fill the aerial coverage to satisfy the customer with in the local rules and regulations The angle and contrast of aerial images and videos we captured will definitely promote your product and portfolio to convince your customers. We provide high quality & creative Images with 20Mg.Pix and Video upto 4K.
